Feedback From our currently studying KF Students

KF Final Year Student Swarnalatha Speaks

Dear sir,

AACEGI 1990 Knowledge Foundation is supporting me since first year. Knowledge Foundation is fulfilling my educational needs including books, semester fee payment, internship / inplant training etc., I am studying well without any fear or thoughts about semester fee payment and other educational needs because of Knowledge Foundation. Knowledge Foundation (KF) members inspired me a lot by supporting me in all circumstances. I am feeling happy to be a member of KF and to assist the other students in future. I thank all the Knowledge Foundation members for being great pillars of support to me in excelling my studies.

Thanking You,

Yours faithfully,

G. SWARNA LATHA

Sundarrajan P - II Year KF Student Speaks

Knowledge Foundation is like a family for me. They were with me whenever I had problems, whether it is financial or academic related problems. KF provided us books, laptops to make my academic process easy. They help me in the preparation of other exams and mock interviews also. KF is like a blessing for me, I could ask any help at any time without any hesitations. Even in pandemic, they understood our situation and helped us a lot. Being a part of KF I learnt many things, the important one is to give hands to the needed.

Yours faithfully,

Sundarrajan P.

About Our KF Board Meetings
